📁 EXPERIENCE

PROJECT EXPERIENCE

Full-Stack JS Internship Project

React · TypeScript · TanStack Query · React Router · Tailwind CSS · Formik · Axios · NestJS · PostgreSQL · TypeORM · Docker · Swagger

- Built a full-stack gallery management application with JWT authentication, protected routes, galleries, and image management.
- Implemented NestJS REST APIs with DTO validation, TypeORM entities, PostgreSQL relations, filtering, sorting, and pagination.
- Added image upload with validation, metadata editing, progress tracking, chunked uploads, and concurrency limits.
- Built responsive interfaces based on Figma designs and extracted reusable UI components.
- Added Swagger documentation and automated frontend and backend tests.

COMMERCIAL EXPERIENCE

Backend Developer (PHP · Laravel · FuelPHP · CodeIgniter · MySQL)

01/2021 – 12/2025 | Zaporizhzhya

- Built and maintained admin panels and internal business systems using PHP frameworks and MySQL.
- Designed REST APIs with validation, authentication, authorization, pagination, filtering, and consistent error handling.
- Optimized MySQL queries and database schemas using indexes, EXPLAIN analysis, and query refactoring.
- Supported PHP version upgrades, third-party integrations, and refactoring of legacy modules.
- Collaborated with frontend developers, backend engineers, and a team lead in an Agile environment.
